

# OSCAR ARAGÓN

Backend developer

## PROFESSIONAL PROFILE

---

Computer Science Engineering student, passionate about technology and software development. As a developer, I have a strong focus on backend development to create efficient and robust solutions. My experience revolves around the Python language ecosystem, where I have worked with frameworks such as Django, Flask, and FastAPI, as well as the Java language with its Spring framework. My knowledge extends to database design and modeling using MySQL and PostgreSQL, and I am also familiar with the MVC design pattern to maintain code modularity and clarity. I am motivated to continue learning and applying my skills to technology projects.

## EDUCATION

---

Currently	<b>Computer Science Engineer</b> <i>Don Bosco University</i>
2008 - 2009	<b>High school with a diploma in computer science</b> <i>Technical Institute of Exalumnos Salesianos</i>

## WORK EXPERIENCE
